SKILLS

- **Languages:** C++, Python, JavaScript
- **Frameworks:** Flask, NodeJS
- **Frontend:** HTML, CSS
- **Concepts:** REST APIs, Authentication, CRUD, OOP
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Adaptability, Teamwork, Communication

PROJECTS

- **SwipeFood - Mobile-First Food Discovery App | [GitHub](#)** Duration Jan 2026 – Feb 2026
- **Stack:** JavaScript, JSX, CSS, HTML, Node.js, Express.js, React.js, MongoDB, Mongoose, JWT, Axios, Vite, Multer, ImageKit
- Built a TikTok-style food discovery platform with CSS scroll-snap delivering a full-screen, native app-like swipe experience.
- Implemented dual authentication for Users and Food Partners with HttpOnly JWT cookies and role-based Express middleware.
- Architected a video upload pipeline with Multer for multipart form data and ImageKit for cloud storage and CDN delivery.
- Modelled food items in MongoDB with ObjectId references linking every post to its owning Food Partner account.
- Secured the backend with bcryptjs password hashing, environment-scoped secrets, and protected RESTful API routes.
- Built a mobile-first glassmorphic UI with CSS line-clamp truncation and validated store navigation for missing links.
- **SocialConnect - Social Networking Web App (Flask) | [GitHub](#) | [Live](#)** Duration Dec 2025 – Feb 2026
- **Stack:** Python, Flask, SQLAlchemy, SQLite/PostgreSQL, Jinja2, HTML, CSS, Bootstrap
- Developed a Flask-based social networking platform using Flask-SQLAlchemy ORM for database modeling and queries.
- Implemented registration, login, logout, and session handling with password hashing using Werkzeug.
- Built CRUD functionality for posts with server-side validation.
- Designed relational database schemas for users and posts.
- Structured the project using modular Flask architecture and clean routing.
- Rendered the frontend using HTML, CSS, and Jinja templating.

CERTIFICATES

- Machine Learning – GreatLearning Duration Sep 2024
- Hackathon Participation – AIESEC Duration Aug 2024
- Research Methodology - NPTEL Duration Sep 2025

ACHIEVEMENTS

- **Participated in university-level hackathon, collaborated in team-based problem solving.**
- **Built and maintained backend projects using Flask and SQLAlchemy beyond academic coursework.**

EDUCATION

- **Lovely Professional University** Punjab, India
- *Bachelor of Computer Applications* **CGPA: 6.95(Current)** Since August 2024
- **Sarvodya Baal Vidyalaya** New Delhi
- *Intermediate; Percentage: 60%* 2020 – 2023
